Put some **CALOR** in your life

SNAP, TWEET & win an iPad!

- 1 Take a photo of yourself on our stand.
- 2 Upload the photo to Twitter, including #CalorHMX and @calorbusiness.
- 3 The winner will be contacted via Twitter message.

Full terms and conditions & rules for entry can be found at www.calor.co.uk/business/hmx

Green, clean, low-cost fuel that keeps your fleet on the move

Energy consultation • Engineering & installation services • End-to-end project management
Sustainable long term energy partner • UK's largest supply network

- Cylinder Safety**
Cylinders are always stamped to show when next safety test is due.
- Memory Plastic Dip Tubes**
Unlike steel versions these do not corrode or fracture.
- A safe environment**
CALOR can offer LPG tapping, ensuring a safe environment all round.
- Magnatrac Technology**
Removes metal particles blocking the valve, reducing downtime.
- Automatic gas delivery**
Our clever Tank Talk technology will tell us when you're running low so you don't have to worry.
- Fixed Fuel Tanks**
Larger tanks designed for fleet operations, so you can get on with work while you're here.

"As efficient as a diesel truck but with the environmental advantages."
Derek Boghurst, Sainsbury's

"LPG fuelled trucks cost less to operate than electric."
Mike Cragg, Marshalls'
